

Our Mission

To respond to the health care needs of our communities with an integrated array of quality services and actively remove barriers to care.

Our Vision

Healthy, prosperous, engaged communities where everyone thrives.

Our Service Area

We provide access to health care services in rural communities throughout 20,000 square miles of northern Wisconsin. The services we provide in each community vary based on that specific community's need, the services currently available and how we can work with existing partners. We strive to actively remove barriers to care by providing quality, integrated services to as many individuals as possible.

- **Jail based support services.**
- **Regional wellness initiatives.**

“We serve as a bridge to resources, individually working with community members and supporting them in living their best life.”

Brenda Spurlock
Community Health Worker - Ashland

Can you become a patient?

At NorthLakes Community Clinic, we believe you deserve access to high-quality health care, regardless of your ability to pay. Our goal is to serve everyone in the communities we are located. Sometimes, we prioritize seeing uninsured, underinsured, or Medicaid patients because their access is limited in our community. In many clinics, we see everyone who walks through our door. If we can't serve you, we are dedicated to finding a partner who can help you.
