

Our Mission

To respond to the health care needs of our communities with an integrated array of quality services and actively remove barriers to wellness.

Our Vision

Healthy, prosperous, engaged communities where everyone thrives.

Our Values

Quality – We provide evidence based, person centered, lifelong care.

Community Health – We promote inclusive collaboration to improve the health of our communities.

Shared Responsibility – We seek to identify and address problems with empathy and accountability.

Stewardship – We invest our various resources for maximum impact and sustainability.

Trust – We respect and advocate for each other with honesty and kindness.

Innovation – We utilize creativity and data to drive decision-making.

Opportunity – We believe everyone should have equal access to resources that promote a meaningful life.

Our Service Area

We provide access to health care services in rural communities throughout 20,000 square miles of northern Wisconsin. The services we provide in each community vary based on that specific community's need, the services currently available and how we can work with existing partners. We provide quality, integrated services to as many individuals as possible to actively remove barriers to wellness.

Can anyone become a patient?

We believe everyone deserves access to quality care. Our goal is to serve everyone in the communities we are located. Sometimes, we prioritize seeing uninsured, underinsured, or Medicaid patients because their access is limited in our community. In many clinics, we see everyone who walks through our door. If we can't serve you, we are dedicated to finding a partner who can help you.

Community Outreach

We strive to find ways to reach folks outside of our clinics. Some examples include:

- **Dental outreach in schools, youth homes, WIC offices and nursing homes**
- **School based counseling services**
- **Regional wellness initiatives**

"When we are able to bring our clinic to the client, it means that people don't have to go without a service. We can often more immediately provide them with what they are needing, including direct care, more information on a topic, healthy food for their family, support from a peer or a little fun to break up the week."

– Jes Springer
Director of SBBH Services
