

## Our Approach

Chiropractic is a natural form of healthcare that treats the cause of problems, not just the symptoms. It is based on the idea that if your nervous system functions properly and you maintain a healthy lifestyle, your body is better prepared to heal itself.

We have a diverse group of chiropractors offering a variety of services to assist our patients. As part of an integrated system, our chiropractors also work closely with other departments to help patients achieve their healthcare goals.

## Our Service Area

We provide access to health care services in rural communities throughout 20,000 square miles of northern Wisconsin. The services we provide in each community vary based on that specific community's need, the services currently available and how we can work with existing partners. We strive to actively remove barriers to wellness by providing quality, integrated services to as many individuals as possible.

# Benefits of Chiropractic Care

Chiropractic is a non-invasive and drug-free therapy for many causes of pain and can be helpful in the treatment of:

- Back pain
- Headaches
- Stress
- Anxiety
- Neck pain
- Migraines
- Herniated disc
- Fibromyalgia

It can also help improve:

- Joint mobility
- Sleep
- Circulation
- Nerve system function
- Athletic performance
- Immune system function

Chiropractic is also safe for infants and children. It can help them with:

- Improved sleep
- Colic
- Reflux
- Constipation
- Growing pains
- Asthma
- Ear pain
- Proper development

appointment today.*

"The chiropractic profession is a non-drug, non-surgical form of healthcare. It can decrease pain and improve function, leading to a better quality of life. I feel blessed that I have been given the opportunity to deliver chiropractic care to our patients for over 30 years."

**Tim Wakefield**  
Park Falls

"It's great to be able to provide our community with the chiropractic care I love and the added support and resources from a team of caring people."

**Chris Gilbaugh**  
Ashland

"It's so rewarding to work with a variety of patients from infants to elderly. To see my patients improve function, decrease pain, and return to activities they previously may have had to stop doing is very exciting."

**Jill Williamson**
