

# Climb The Ladder With Our Medical Assistant Apprenticeship Program

This program supports candidates who are new to the field of Medical Assisting to apply to train and work as a Medical Assistant at NorthLakes Community Clinic as part of our MA Apprenticeship program.

Becoming a Certified Medical Assistant (CMA) allows you to learn and earn more, and it's free to you. NorthLakes covers the cost of the program, the course, and the certification.

## What You'll Do:

As a Medical Assistant, you'll engage with patients and providers to deliver whole-person care. This includes promoting preventative care, assisting patients with treatment plans, and helping patients remove barriers that may prevent them from gaining access to care.

## Program Requirements:

- Acceptance into the program.
- Actively working towards ICATAP (In-Clinic Assistant Training Apprenticeship Program) completion while fulfilling your full-time Medical Assistant scheduled work hours.
- Completing the educational coursework of the program outside of work hours. All coursework is to be completed within 12 months of program commencement.
- Complete the program's on-the-job skills requirements under the direction of the receptor.
- Obtain Medical Assistant certification within 12 months of obtaining the educational program.
- Commit to 12 months of employment with us in the role of a Certified Medical Assistant, following program completion and certification through American Medical Technologists (AMT) or National Healthcareer Association (NHA).
