INFORMED CONSENT

Patient Name:_____ DOB:_____

I understand that I am seeking services regarding a health problem or suspected health problem at NorthLakes Community Clinic (NorthLakes) to be provided by authorized employees of the Clinic, etc. I consent to routine services, which may include but are not limited to: assessment, evaluation, diagnosis, treatment planning, therapy, group therapy, education, discharge planning, referral, and follow up care. These program elements have been explained to me and I understand what the services are. I understand I can withdraw this consent at any time, and that **it is effective for one year from this date**.

In addition to the above be informed that:

- Benefits that will come from this treatment could include a solution to your presenting problem, better coping skills or a better adjustment to your life situation.
- You and your provider will establish the treatment plan that will include how often you will meet with the provider and who may be included in your treatment.
- The clinician providing treatment may not be credentialed by OptumHealth/UBH and the visits will be billed under their supervising provider.
- Treatment does not always result in positive changes. Occasionally the problems remain despite your and your provider's best efforts. In some cases, new problems may arise or unwanted changes occur. For example, talking about your depression may make you feel worse initially, or as you get better, other problems arise and become important.
- Besides the proposed ways of addressing your problems, there are other resources such as self help groups, spiritual teachers, cultural activities, church or other support groups or providers with different approaches.
- If you elect not to seek treatment a number of things could happen. Your problems may solve themselves, your problems may remain as they are, your problems may worsen, or new problems may appear.
- Information shared in sessions is confidential and will not be released without specific written authorization from you or your representative. For the purpose of continuity of care, information can be shared with other providers within the NorthLakes Clinic who are also involved in your treatment. This confidentiality remains after termination and we maintain records for seven years.

Information that cannot be kept confidential that your provider and NorthLakes Community Clinic is required by law to release includes:

- Suspected or actual physical and/or sexual abuse or neglect of a child or vulnerable adult
- Information requested in a court order
- Situation in which you are judged to be in imminent or immediate danger of harming self or others.

NorthLakes Clinic does not provide emergency behavioral health care. In case of an emergency, please contact your local emergency room or call the Crisis Hotline at (866) 317-9362.
Our general hours of service are 9:00AM-5:00PM.

By my signature below, I give consent for the administration of the above described treatment. I have been given complete and accurate knowledge, and I understand that no promises have been given to me as to the results of the treatment.
